★ **MONKEY BOY** ★

late at night – i'm hypnotized
 i stop to hide – from this tempting life

i need a dread for my bed
 need a bed without dread
 i need another place inside where i can hide
 need a med for ma head
 need a head for ma med
 i need another piece of bliss to leave this behind

i'm running outside, i pass through the night
 man, push it! push it! redefined!
 i'm using my time, i'm out on the rise
 gonna crash another –
 wicked, wicked, wicked, wicked night

monkey boy, i like your magic toy,
this is my greatest joy –
it makes me uahaha-uaha
monkey boy, your madness does annoy,
this time i will destroy –
you make me uahaha-uaha

late at night – i start the fight

i need a game that i tame
 need to tame all the games
 i need to find another way to break the design
 we need a street to deplete
 need to deplete the streets
 we need another way inside escape from confines

get out of my sight – i'm playing for time
 men, i reinvent – redesigned
 i'm loosing my mind, recalling my life
 gonna crash another –
 wicked, wicked, wicked, wicked night

un – un – un – dos – tres –
 i'm doing better – better
 un – dos – dos – dos – tres – doing better
 un – dos – tres – tres – tres –
 i'm doing better – better
 un – dos – tres – no stress – feeling better
