

SIN

one forbidden touch
and one drink too much
different skin I felt
my possessions melt

oh don't regret this kiss
such a short-time bliss
man I need much more
nothing will be like before

Will I stand right here forever?
In the middle of nowhere.

Talk to me – should I stay or will you leave?
Talk to me – I think of her but you don't think of me

moments passing by
hands are touching shy
take a sip of wine
don't regret this time

I look back and wait
everything was straight
now I loose control
nothing will be like before

I'm standing here forever
I'm feeling you nowhere

Talk to me – talk to me - should I stay or will you leave?
Talk to me – talk to me - I think of her but you don't think of me

I'm standing here forever
I'm standing here forever

Talk to me – talk to me - I can't share you - you don't belong to me
Talk to me - talk to me - don't replace me with a memory

Talk to me - Take my hand

Talk to me – talk to me - should I stay or will you leave?
